Types of training

BSI offers training in many different formats:

Online training

With BSI's 'live' online training, you can take the same high-quality classroom course with the same expert tutor, simply delivered in a virtual environment, regardless of where you're located.

You can even book a course that's dedicated to your organization, so a group of you can all train at the same time - from anywhere.

Classroom training

Our public training courses take place in convenient locations across Australia.

Attendees are away from office distractions and benefit from interacting and networking with people from other organizations.

In-house training

An in-house training course is one held at your premises and is open only to your employees. Training in-house eliminates travel expenses and additional time away from the office. It also keeps your content and discussions confidential.

If you think you may need training in a different format then please **contact us** to discuss what alternative options we have available.

On-demand training

You can now learn with more flexibility than ever before thanks to our growing range of video learning, eLearning and micro-learning modules. Our on-demand training delivers the same high-quality content you'd expect from BSI, using a combination of video, online course materials and embedded assessment, enabling you to study at your own pace, in your own time.
