We spend over **1 million hours** each year improving the performance of businesses around the world

This experience allows us to see first-hand how ISO 22301 can help organizations to reduce risks, increase resilience, and deliver real benefits

Business issue	How ISO 22301 helps	Benefit to your organization
Disruption	 You need to consider the interesed parties affected by the Business Continuity Management System (BCMS) and their requirements and plan how and when you will communicate with them when an incident occurs You need to define acceptable timescales for the resumption of activities for you and your suppliers It requires you to test your plans and work with partners, making it real and not just a paper-based exercise 	 Reduces the frequency and impact of disruptions Helps you to return to "business as usual" as swiftly as possible Sets clear expectations and improves supply chain relationships A robust BCMS in place could reduce your insurance premiums
Reputation	 You need to understand your role in the wider environment and supply chain so you can identify and effectively manage potential disruptions You need to implement, maintain and improve business continuity plans You need to regularly test plans to check they are effective 	 Enhances your reputation in the market place which could help you win business Helps ensure your plans are robust and ensures you are resilient and well-placed to deal with change Builds stakeholder confidence and trust
Risk management	 You will need to evaluate the impact of disruption You need to consider how each risk will be handled You need to carry out regular risk assessments, including those affecting interested parties and the wider community 	 Gives visibility on the risks to your organization both internally and externally Gives you confidence that your recovery plans are effective Can give cost savings on reducing the impact of disruptions Keeps you up-to-date with any regulatory obligations or societal needs in the event of a disruption
Engagement	 Top management are required to develop and continually improve the BCMS Resources and training must be made available to deliver the BCMS Employees and stakeholders must understand the BCMS policy and their roles and responsibilities in relation to it 	 It puts a high emphasis on the importance of the BCMS so it's taken seriously Ensures staff are competent to effectively manage the BCMS Gives greater clarity to stakeholders and increases employee engagement and understanding of the BCMS

...making excellence a habit...

Top tips on making ISO 22301 effective for you

Every year we have interactions with tens of thousands of clients. Here are their top tips.

Top management commitment is key to making this a success. "The earlier that organizations talk to senior managers, the better it will go for them so have those discussions early". John Scott, Overbury, leading UK fit-out and refurbishment business "When we decided to implement the new standard, we assigned an Keep staff informed of what's going on, create a team or assign a champion, as this will increase motivation. This could include a well internal champion of the standard inside the organization". communicated plan of activities and timescales. Ronald Tse, Ribose, Hong Kong based cloud services provider Think about how different departments work together to avoid "With ISO 22301 in place, we are all talking the same language about silos. Make sure the organization works as a team for the benefit of the business. We all understand what is meant by best practices and we customers and the organization. are better able to deliver on our customers' expectations even during an impactful business event". Dan Nickel, Ciena, US based network solutions provider "The BCM system is a great reassurance. It has enabled us to make plans to Review systems, policies, procedures and processes you have in mitigate problems quickly if they occur- for example, to identify a second place – you may already do much of what's in the standard, and make it work for your business. water supply and provide electricity back-up – things we wouldn't have done otherwise". Andy Drummond, Lettergold Plastics Ltd, UK engineering company

Speak to your customers and suppliers.

They may be able to suggest improvements and give feedback on your service.

Train your staff to carry our internal audits of the system. This can help with their understanding, but it could also provide valuable feedback on potential problems or opportunities for achievement.

> And finally, when you gain certification celebrate your achievement and use the **BSI Assurance Mark** on your literature, website and promotional material.

"They [customers] know we have a solid framework for service continuity and ability to restore all services to business as usual operation in the least possible time".

Sanjay Verma, Dunn & Bradstreet (Australia), global business information provider

"Staff awareness training was vital to the success of ISO 22301 implementation project".

Jide Orimolade, AIICO Insurance, Nigerian life insurance provider
